3. Application of Division

The procedure set out in this Division (the grievance procedure) applies to disputes

- (a) between members; or
- (b) between one or more members and the Association.

PART VI

DISPUTES

21 Parties to attempt to resolve dispute

The parties to a dispute must attempt to resolve the dispute between themselves with 14 days after the dispute has come to the attention of each party.

22 How grievance procedure is started

- (1) If the parties to a dispute are unable to resolve the dispute between themselves within the time required by rule 20, any party to the dispute may start the grievance procedure by giving written notice to the secretary of —
 - (a) the parties to the dispute; and
 - (b) the matters that are the subject of the dispute.
- (2) Within 28 days after the secretary is given the notice, a committee meeting must be convened to consider and determine the dispute.
- (3) The secretary must give each party to the dispute written notice of the committee meeting at which the dispute is to be considered and determined at least 7 days before the meeting is held.
- (4) The notice given to each party to the dispute must state —
- (5) when and where the committee meeting is to be held; and
- (6) that the party, or the party's representative, may attend the meeting and will be given a reasonable opportunity to make written or oral (or both written and oral) submissions to the committee about the dispute.
- (7) If —
 - (a) the dispute is between one or more members and the Federation; and
 - (b) any party to the dispute gives written notice to the secretary stating that the party —
 - (a) does not agree to the dispute being determined by the committee; and
 - (b) requests the appointment of a mediator under rule 25,

the committee must not determine the dispute.

23 Determination of dispute by committee

- (1) At the committee meeting at which a dispute is to be considered and determined, the committee must —
 - (a) give each party to the dispute, or the party's representative, a reasonable opportunity to make written or oral (or both written and oral) submissions to the committee about the dispute; and
 - (b) give due consideration to any submissions so made; and
 - (c) determine the dispute.
- (2) The committee must give each party to the dispute written notice of the committee's determination, and the reasons for the determination, within 7 days after the committee meeting at which the determination is made.
- (3) A party to the dispute may, within 14 days after receiving notice of the committee's determination under subrule (1)(c), give written notice to the secretary requesting the appointment of a mediator under rule 25.
- (4) If notice is given under subrule (3), each party to the dispute is a party to the mediation.

24 Application of Division

- (1) This Division (Pt 4, Div 4) applies if written notice has been given to the secretary requesting the appointment of a mediator —
 - (a) by a member under rule 20(7); or
 - (b) by a party to a dispute under rule 22(5)(b)(ii) or 23(3).
- (2) If this Division (Pt 4, Div 4) applies, a mediator must be chosen or appointed under rule 25.

25 Appointment of mediator

- (1) The mediator must be a person chosen —
 - (a) if the appointment of a mediator was requested by a member under rule 20(7) — by agreement between the Member and the committee; or
 - (b) if the appointment of a mediator was requested by a party to a dispute under rule 22(5)(b)(ii) or 23(3) — by agreement between the parties to the dispute.
- (2) If there is no agreement for the purposes of subrule (1)(a) or (b), then, subject to subrules (3) and (4), the committee must appoint the mediator.
- (3) The person appointed as mediator by the committee must be a person who acts as a mediator for another not-for-profit body, such as a community legal centre, if the appointment of a mediator was requested by —
 - (a) a member under rule 20(7); or
 - (b) a party to a dispute under rule 22(5)(b)(ii); or
 - (c) a party to a dispute under rule 23(3) and the dispute is between one or more members and the Federation.
- (4) The person appointed as mediator by the committee may be a member or former member of the Federation but must not —
 - (a) have a personal interest in the matter that is the subject of the mediation; or
 - (b) be biased in favour of or against any party to the mediation.

26 Mediation process

- (1) The parties to the mediation must attempt in good faith to settle the matter that is the subject of the mediation.
- (2) Each party to the mediation must give the mediator a written statement of the issues that need to be considered at the mediation at least 5 days before the mediation takes place.
- (3) In conducting the mediation, the mediator must —
 - (a) give each party to the mediation every opportunity to be heard; and
 - (b) allow each party to the mediation to give due consideration to any written statement given by another party; and
 - (c) ensure that natural justice is given to the parties to the mediation throughout the mediation process.
- (4) The mediator cannot determine the matter that is the subject of the mediation.
- (5) The mediation must be confidential, and any information given at the mediation cannot be used in any other proceedings that take place in relation to the matter that is the subject of the mediation.
- (6) The costs of the mediation are to be paid by the party or parties to the mediation that requested the appointment of the mediator.

27 If mediation results in decision to suspend or expel being revoked

If -

Section 182(1) of the Act provides that an application may be made to the State Administrative Tribunal to have a dispute determined if the dispute has not been resolved under the procedure provided for in the incorporated association's rules.

- (a) mediation takes place because a member whose membership is suspended or who is expelled from the Federation gives notice under rule 20(7); and
- (b) as the result of the mediation, the decision to suspend the member's membership or expel the member is revoked,

that revocation does not affect the validity of any decision made at a committee meeting or general meeting during the period of suspension or expulsion.

The Board reserves the right to change the line of flight under the Animal Welfare Act and the Code of Practice.

56. Ring Members

- 56.1. Ring members shall be allowed to purchase rings for two (2) years only. No rings will be made available thereafter unless the ring member competes as a full flying member of the Club, or unless exempted by the Board of Control.

57. Federation Boundaries

- 57.1. The area encompassed all Cities & Shires up to the northern boundary of the City of Wanneroo, then parallel east as far as and including the Shire of Mundaring vertically south to the southern boundary of the Shire of Murray and then parallel to the coast. Any existing member who resides outside these boundaries will automatically become a Country member with this Federation.

58. Invitation Races

- 58.1. All invitation races to be open to all flyers, providing they have airlines from the P.R.F. and I.R.P.F.

59. Specialty Races – Payment of Prize Money

- 59.1. In special races, such as Sires and Invitation races etc, conducted by Clubs affiliated with this Fed, the payment of all prize monies won in these events must be paid no later than four (4) weeks after the date of the event.
- 59.2. That only Open prize money will be paid on all Federation Races on the programme

60. Flyer of the Year Competition

The flyer of the year consistency to be worked out as follows:

- (a) The top velocity in the Federation each week receives one hundred points and further positions receive one less point according to the numerical order they finish. Maximum number of points one hundred, minimum number of points zero. Flyers not racing and those that do not clock out receive zero points and no further penalties. The flyer with the most points at the end of the season will be declared the winner.
- (b) For the purpose of the flyer of the year consistency, members may only nominate 30 birds per race including Federation races. This does not preclude a member sending more than 30 birds per race where open limits apply to that Club or Fed race. Birds nominated must be on the first entry sheet submitted and the race entry original sheet to be submitted to the Federation Secretary with the race results.
- (c) In the Federation Long Distance Series, a member's second pigeon is eligible to be clocked and given a velocity on the PRF Results System, but not eligible to receive any Flyer of The Year points. The second pigeon clocked is eligible to be nominated for any one of the Champion Bird Awards but is not eligible for any Federation prize money.

61. Flyer of the Year – Federation Races

- 61.1. A competition open to all PRF members to determine the Flyer of the Year for Federation races only. All Federation races must be flown to gain consistency points. The flyer at the end of the race program with the highest number of points is declared the winner.

62. Club Results

- 62.1. That all clubs affiliated to the Pigeon Racing Federation of W.A.(Inc) are to provide the Federation Secretary with their club results no later than 42 hours from the time the pigeons are liberated. Failure to comply with this Rule will mean that the Federation Secretary can assume that clubs that do not supply by 42 hours from the time the pigeons are liberated will be disqualified and the Federation can issue the appropriate results on time

In the case of a double race, 42 hours from the time of the second liberation.

Depending on prevailing circumstances the Board of Control shall have the discretion to adjust the latest time for posting results.

APPENDIX: RULES AND UNIFORM PRACTICES FOR THE CONDUCT OF FEDERATION AND CLUB RACES.

1. RACE ENTRY FORMS AND BASKETING OPERATIONS

- 1.1. Ink shall be used when completing Race Entry forms.
- 1.2. The date entered on the Race Entry Form shall be the date of the basketing.
- 1.3. All entries on the Race Entry Form shall be completed by the member before basketing commences.
- 1.4. The bird description on the Race Entry Form shall include, colour, sex, ring number and year.
- 1.5. Birds to be recorded in numerical order on the Race Entry Form.
- 1.6. When basketing each member, or a person nominated by him, may remove his pigeons from his personal basket and hand one at a time to a member nominated to assist in the basketing process. The person nominated to assist the basketing process shall immediately present that pigeon to the person allocated to apply a race rubbers to leg of pigeon being entered into a race. He shall then and there clearly call the particulars from the pigeon's life ring to the person checking the particulars of the pigeon against the Race Entry Form. When particulars are verified the person responsible for applying the race rubber shall immediately apply the race rubber to the pigeon. The person handling that pigeon shall immediately place the pigeon in a race crate designated for that race.
- 1.7. When basketing, the paper tab and corresponding race rubber numbers associated with the said paper tab are to be verified as being the same [when placing rubber ring on the bird], then both numbers are to be recorded on the Race Entry Form, alongside the particulars of the pigeon then being processed, by the member allocated that task. On completion of that process the person completing the Race Entry Form shall initial the Race Entry Form. He shall then place the paper tabs in an envelope, with the member's Race Entry Form and seal the envelope, or secure container, then hand the sealed envelope, or secured container and contents to the Clock Foreman. [amended by members at the 2024 AGM]
- 1.8. The Clock Foreman on completion of the basketing process, shall secure all envelopes containing Race Entry Forms and tags associated with race rubbers applied to the legs of birds, into a secure locked box sealed with a clock seal.
- 1.9. Other than to remove his own pigeons from his personal basket, no member shall handle his own pigeons, place a race rubbers on his own birds, or write on his own Race Entry Form during the basketing process.
- 1.10. One member only [1] of a partnership is eligible to be involved in the basketing process.
- 1.11. Where Two [2] or more members fly to the same loft only one [1] is eligible to participate in the basketing process.
- 1.12. Where two [2] or more members fly to two [2] or more lofts situated on the same lot, only one [1] is eligible to participate in the basketing process.
- 1.13. Basketing shall not commence at any club unless there are a minimum of four [4] independent flying members in attendance, one of whom shall be the basketing Chairman.
 - 1.13.1 Four [4] financial flying members shall remain present at the club until the crates containing all members pigeons that have been entered into the race are loaded onto the Federation truck.
 - 1.13.2 Any club found to be in breach of rules 1.13 or 1.13.1 will be suspended from truck pickup for a minimum of two [2] years. Any members found to be in breach of rule 1.13 will be suspended for a minimum of five [5] years.

- 1.14. Members that fall into categories mentioned at 1.10, 1.11 and 1.12 do not make up the four [4] independent members required to be present when basketing commences, except when basketing another independent flyers pigeons.

2. CLOCKS

- 2.1. Clock papers shall be identified with the flyers name, club, race point and date when clock is set.
- 2.2. All clocks shall be started with a starting plug and the time of the second plug shall be variable, if the clock committee so desires.
- 2.3. All clocks shall be plugged out with two (2) plugs and the time of the second plug shall be variable, if the clock committee so desires.
- 2.4. When timing in, if it is found not possible to enter the thimble in the bucket, the clock shall be plugged only after the rubber has been taken of the bird. The thimble is to be placed in the next bucket, and the clock plugged again forthwith.
- (a) In the event of a rubber ring not being in the correct bucket the time recorded against that bucket will be disallowed.
 - (b) Should the rubber ring be deposited in a later bucket, that bucket shall be accepted for the Federation prize money and as the time of timing for the FLYER OF THE YEAR purposes.
 - (c) Should the rubber ring not be deposited in a clock bucket, ie lying on top of the buckets, the rubber will be disqualified and the flyer award (for the FLYER OF THE YEAR purposes) a velocity equivalent to the velocity applicable if the pigeon had been timed in at the checking time of the clock.
 - (d) Should a member be unable to place the rubber ring in the correct bucket because of clock malfunction, they shall strike off the clock prior to timing in and insert rubber in the next bucket. The time recorded against the bucket containing the rubber shall be accepted providing the member has informed the clock foreman prior to the clock being struck off.
 - (e) Nothing in the above will prevent a member timing in a second pigeon and the time recorded may be accepted for all purposes.
- 2.5. The clock paper shall be intact complete to the last print when the clock is opened. If a clock paper is torn through, a flyer shall take only the velocity of the last place getter, and the last place.
- 2.6. Seals from clock shall be retained for identification in the envelope with the race rubber tabs until the clock is certified correct.
- 2.7. A clock that it not sound, or is in any way mechanically faulty shall not be accepted for competition.
- 2.8. All clocks shall be fitted with an anti acceleration device except those approved by the Federation. Where dolometers are fitted, they should be checked at regular intervals to ensure that they are functioning correctly. The hands shall be set at zero. Only four (4) points shall be allowed on a HUDSON clock dolometer, and four (4) points on a STB clock dolometer. Five millimetres 5mm on a benzing or Simplex clock dolometer. Five (5) points on a Record clock dolometer. Any other clock must be shown to the Clock Committee before an allowance is given. Any clock showing more than the amounts allotted shall be disqualified.
- 2.9. It is the responsibility of the flyer to see that their clock is in complete operating order, that is:-
- (a) Clock is wound up.
 - (b) Sufficient paper on the roll.
 - (c) Printing clearly.
 - (d) Correctly set. Dolometer hand on zero and "day hand" on seven (7) or as designed.

(e) That the clock is going and correctly sealed before leaving the Federation or Club rooms.

2.10. The Clock Committee, before recording the bucket number, shall give all clocks, where applicable, extra plug and take up the slack.

2.11. All Junior Quartzcomputer T3 and Electronic Timers may be used by members provided they have been approval from the Board of Control.

2.12. All Competitors who use either a Quartz clock, or Electronic timer in Federation races must have a continuous running clock especially made for timing homing pigeons. All clocks to be started at actual time obtained from a master timer and a record of the time kept. On production of clocks after the race it shall be compared against the Master timer for any loss, or gain. Any competitor using a Quartz clock shall on being opened, show more than the recognised regulation punctures or prints, shall be dealt with at the discretion of the Board and if need be disqualified.

3. OIL WELLS (This applies to all clocks not exempted by the Federation)

3.1. Before being used for competitive purposes in Federation and Club races, oil wells shall be fitted to all clocks subject to the following provisions:

- (a) Where possible, two (2) oil wells shall be fitted and at right angles to one another.
- (b) Where one oil well only can be fitted it shall be fitted diagonally if possible.
- (c) Provision shall be made and decided on by the Board of Control for the use of those clocks to which oil wells cannot be fitted.

3.2. Oil wells shall be made of transparent, open ended V shaped glass tube. The "U" shall be approximately twenty-five millimetres (25mm) from top to bottom and the tubes or approximately three millimetres (3mm) bore. The wells shall be not less than three quarters (3/4) filled with oil as supplied by the Federation. No other oil shaft be permitted. The absence of oil wells without authorisation, or evidence of oil spillage in the clock shall render the member liable to disqualification.

4. DOLOMETERS AND OILWELLS CLOCKS EXEMPTED

4.1. The development of technology in some clocks has resulted in the production of modern clocks that cannot be made to go either slower or faster, and, accordingly, do not have dolometers, or need oil well.

4.2. The Board of Control shall have the power to exempt such clocks it deems meets these requirements

4.3. Clocks approved for use without dolometers, or oil wells are as follows:

- (a) Benzing Electronic/Quartz Clocks.
- (b) S T B Electronic Quartz Clocks.

4.4. S T B New mechanical models have in the 36'000 frequency (in lieu of the 18'000 frequency). (The timers of 36000 frequency are models 102 1781, 1728, 1774 and 1779 and, accordingly, do not have dolometers.)

5. LOSS AND GAIN

5.1. In the calculation of time variations, the limitations on loss or gain for any clock laid down under Rule 30 are to be thirty(30) seconds in 24 hours.

5.2. Clock papers and clock variation calculators shall always be read against the flyer. The first running plug of the clock paper shall be referred to for any variations on the plugs on the paper.

5.3. Clocks listed by the manufacturer as dual purpose, that is, for use with or without a thimble, and are approved by the Board of Control can be used as thimble less clocks if desired. The variation Calculators shall adhere to the following rules when completing clock and race sheets:

- (a) If the clock has been set FAST, the amount shall be DEDUCTED.
 - (b) If the clock has been set SLOW, the amount shall be ADDED.
 - (c) If a clock GAINS on the run the proportionate gained (variation) shall be deducted.
 - (d) If a clock LOSES on the run, the proportionate amount LOST (variation) shall be ADDED.
- 5.4. Clock sheet shall be completed exactly as the reading appears on the clock tape. The Fast/S low space shall show the actual reading from the clock paper with the non relevant work crossed out.
- 5.5. The numerals of the distance sixtieths (60ths) and the bird flying time in seconds, shall appear on both the original and duplicate of the clock and race sheets, at back. The velocity shall be entered on the top righthand corner of the sheet in the space provided in calculating, always read against the flyer, for example:
- (a) Losing clock – read on.
 - (b) Gaining clock – read back.
- 5.6. Where there is one (1) second gain or loss the following procedure will apply:
- (a) On a gaining clock – deduct.
 - (b) On a losing clock – read as one (1) second.
- 5.7. Clock papers are to be read against the running plug in determining loss and gain. (Starting plug may be at 7.55 pm, running plug at 8.00 pm).
- 5.8. Clock papers will be read using a ruler to estimate the time of arrival, if some of the minute marks are missing on the paper to where the hand is pointing. So long as the minute hand is printed the ruler may be lined along the minute hand and down to the minute marks showing at the opposite end. Always rules against the flyer when reading clock time.

APPENDIX A

Rules and Conditions of Installation and use of Electronic Band Scanning Systems – November 2014

1. The use of Electronic Band Scanning Systems (EBSS) is approved by the Pigeon Racing Federation of WA Inc. (PRF) for use in all Races conducted by the PRF.
2. In the event that the PRF Board of Control determines that an EBS System or a system design does not provide adequate security or presents a potential security question the PRF may disapprove the use of that system. The disapproval of any system will be effective immediately upon resolution by the PRF Board of Control and the disapproval will be advised to members as soon as reasonably possible by personal notice and or PRF Board of Control minutes.
3. If the PRF Clock Foreman, his/her designate, or any race official determines that a lack of security exists with any individual unit, he/she must notify the PRF Board of Control and seek an immediate statement as to the validity of the continued system use. The Clock Foreman, his/her designate, or race official must provide a written statement of the reason for concern to the EBSS Owner and to the PRF Board of Control.
4. Issues of actual adequacy or otherwise of Security will be a matter for determination by the PRF Board of Control following advice provided to the PRF Board of Control by affiliated PRF clubs, PRF members and EBSS supplier delegates.
5. Use of an EBSS by an individual PRF member must be notified to the PRF in writing by the member's respective PRF Club.
6. A PRF Club shall not make use of an EBSS mandatory.
7. A PRF member is free to purchase any EBSS he/she chooses. The member is responsible for ensuring the system (hardware/software) is suitable and complies with the requirements of these EBSS rules and installation conditions. The PRF or the Club shall have no responsibility for any system incompatibility.
8. All EBSS systems shall comprise an electronic clock/data device, electronic landing board(s), and an independent club system reading device plus appropriate and current software. All EBSS systems will utilize an electronic printer for providing basketing lists, and race/evaluation lists.
9. The serial number of each EBSS system (clock, antennas, club system, slave clocks, base stations etc must be registered with the PRF prior to use.
10. Installation of the EBSS in a Member's Loft must be inspected and approved by the PRF clock foreman or his/her designate before being accepted for competition use with the PRF. The nominated designate is to be the local club chairman, local club secretary, or local PRF club clock Foreman. Any questions as to acceptability are to be referred to the PRF clock chairman.
11. All EBSS sensor/antennae/ELB are to be installed inside the confines of the loft or any entry into the face wall of the loft which effectively traps the pigeon within the entrance when being recorded by the ELB. The definition of the loft includes flights, sputnik traps, sun shelters etc which are permanently attached and considered part of the loft. See Attachments 1 and 2 for non-legal and legal set ups.
12. Sensor/antennae may be single pad ELB, or a multi pad ELB depending on manufacture. More than one sensor/antennae pad ELB per electronic clock shall be allowable if compliance with EBSS rule 14 occurs.
13. Every sensor/antenna must be sealed (using a clock seal) as a fixture at point of entry, and the seal number recorded. Seal numbers are to be recorded by club clock foreman or his/her designate and forwarded to the General Secretary or as directed by the PRF. This process will not need to be carried

out each year (if the sensors/antennas and seals are still in place the next season) but must be verified by the club clock foreman or his/her designate prior to PRF racing each year.

14. EBSS PRF flyers wishing to use more than one sensor/antennae ELB must comply with the following requirements:
 - (a) The distance between the sensor/antennae ELB shall be measured and the distance is not to exceed 3 metres over all.
 - (b) If the distance is greater than 3 metres, the flyer shall apply to the PRF Clock Foreman for approval to use that sensor/antennae ELB setup for flying PRF races.
15. No sensor/antenna ELB shall be employed or placed at the loft of another competitor or moved to any other position of the competitor's loft without prior application to, and approval by the PRF.
16. The PRF Clock Foreman or his/her club/group delegate shall be authorized to secure and use the System Control Modules and or System Authorization Swipe Keys and or GPS time setting devices during clock setting and clock reading activities at club and group basketing centres as necessary.
17. During the race entry logging or basketing process, electronic banded pigeons shall not be handled, or bird(s) verified, or the EBSS system operated by the competitor (or a representative of the competitor) as is the case with non EBSS basketed pigeons.
18. During the basketing procedure, the bird data provided on screen by the EBSS is to be cross checked against the actual bird and life ring data on the pigeon life ring (and the basket list when printed). If the data does not correspond, the birds is to be disqualified from the race – except that in cases of sex or colour/pattern discrepancies the basketing list may be amended (as is the case with non EBSS bird nominations).
19. After all EBSS race birds have been basketed, the PRF Clock Foreman or his/her designate shall print a list of the competitor's entries as verification of all birds entered. The competitor then selects and marks his Pool birds, Special Race birds etc. These birds must be underlined.
20. The printout shall be signed by the PRF Clock Foreman or his/her designate, and the competitor.
21. The printout serves as a Race Entry Sheet. An additional copy shall be printed for the Competitor.
22. In the case where an electronic clock race sheet shows a tie, the first (1st) bird listed will receive the highest ranking and so forth, down the list.
23. If race entry data is deleted (whether accidentally or deliberately) from the EBSS clock (either prior to basketing, prior to the race, after the race, or at any time prior to the basketing sheet or race result sheet being printed), the competitor shall be disqualified from the race of that week.
24. Where a Band has become dysfunctional (for whatever reason), broken or stolen, that band may be replaced and recorded to the satisfaction of the PRF Clock Foreman or his/her designate.
25. In the event of a malfunction of an EBSS and it being sent for repair, proof of repair must be produced before the EBSS can be used for competition again. Proof of repair shall be the receipt of the Repairer (which shall note the repaired EBSS serial number) and/or the new unbroken manufacturer seal on the EBSS device.
26. In the event of the removal of the sensor/antenna ELB for any reason, the sensor/antenna ELB re installation must be re approved by the PRF Clock Foreman or his/her designate before the EBSS can be used for Competition again. (See Rules 10, 11, 13 and 14)
27. If any Competitor intentionally attempts to corrupt, interfere with, or destroy the electronic data of another competitor, then his/her conduct shall be reported to the club, and Federation Secretary/Board of Control for review.
28. When closing the race, the PRF Clock Foreman or his/her designate shall print out all data basketing/race results/evaluation sheet prior to transferring data from the EBSS to the computer (if

used). The printout will serve as a backup and review document for later reference if necessary. Use of an EBSS (and hence data integrity) is at sole risk of the PRF member/competitor using the EBSS.

29. Should the EBSS screen display (after a race entry or race) show the complete set of results, but not be able to generate a printout, the PRF Clock Foreman or his/her designate shall view the display data and report it manually. The manual (screen) report may be used for calculating race results if the ring number, clock 'fast/slow', race number, race date and time of clocking is available on screen. The confirmation of this result is to be made available to the PRF Clock Foreman for verification. The clock will be required to be presented to the PRF Clock Foreman or his/her delegate by the flyer owning the EBSS clock. If all the required information is not available, the bird shall be disqualified.
30. Should an EBS System become dysfunctional, the flyer may take his pigeon to another EBSS loft and time the pigeon on the competitors/flyers EBSS clock (this assumes that the chip ring data number (as a minimum) can be read and corresponds to the chip ring data noted on the original basketing sheet.
31. Slave clocks (such as the TIPES MC2100 which enable continuous clocking in the absence of the registered clock) are permitted. The registered clock must be used for the provision of basketing lists and race result lists. Slave clocks (or copy clocks) shall not be used to calculate race results.
32. Base stations (such as Benzing, Tauris and Mega) which enable continuous clocking in the absence of the registered clock permitted. The registered clock must be used for the provision of basketing lists and race results lists. Base stations (or copy clock's) shall not be used to calculate race results.
33. The PRF Board of Control or its designate reserve the right at any time, (and without prior notice) to inspect the installation and operation of any EBSS being used by a competitor within the PRF.
34. All cards discs etc used to operate various systems must be locked away in a sealed container after basketing.
35. All relevant data must correspond on entry/clocking sheets or disqualification may occur.
36. Time variation to be no more than 8 seconds in 24 hours, loss and gain penalties as per Rule 30.1 under Rules Part 1 to apply.
37. The PRF Board of Control may from time to time amend these Rules and Conditions as it thinks fit and within its absolute discretion.
38. Members shall only use electronic rings provided by a registered Electronic Timing System manufacturer. All writable electronic rings are banned from use in all and any races conducted by The Pigeon racing Federation of Western Australian [Inc.]
